IDENTIFICATION, HAZARD AND ZONE MARKING

Colour identification is a key component of safety for industrial facilities. Without identification, risk increases.

We provide long lasting colour coded solutions to identify pipe contents, as well as indicate overhead hazards and mark safe traffic paths on floors.

FLOOR COATINGS AND ANTI-SLIP

Concrete, steel and other substrates need protection in chemical environments. We can provide durable 100% solids coatings complete with anti-slip to make a bright and durable surface.

IMPROVED EFFICIENCY AND VISIBILITY

A fresh coating will reflect your lights and increase visibility. Where dust or dirt is a concern, there are a wide range of colours that can be selected for better reflective value in durable washable products.

FULL SYSTEM PROTECTION GUARANTEED

Our industry experience will ensure that you have a complete coating system compatible with previously installed coatings and suitable to the environment of your industry.
